Newstead Ag Day 2018

Due to the current outbreak of Mycoplasma Bovis in New Zealand Dairy and Beef cattle, the Royal Agriculture Society of NZ has made the decision (in conjunction with an MPI recommendation) to not allow any bovine animals to participate at Calf Clubs, Group Days or A&P shows for the 2018 season.

The PTA and School support this decision. Therefore Ag Day registrations this year will only be open to Lambs, Goats and caged animals along with the arts and crafts challenges. More details regarding Ag Day will be sent out at the start of Term 3.

If you any any questions regarding Ag Day please feel free to contact Marg Clark 027 303 4478.

CHOIR PARENTS

The Country Cluster Choir festival which was scheduled for week 10 of this term has now been postponed to Thursday 2nd August, followed by Kids For Kids on Thursday 23 August. Contact Whaea Nikki or Mrs Malcolm if you have any questions.

TE REO LESSONS TERM 3

Kia ora everyone, after a successful term of evening Te Reo Maori lessons for our community we are in a position to offer them again next term. Please email me if you are interested in attending. It is likely that the classes will continue to be on a Wednesday evening for one hour beginning between 5.30-6.00. The cost has not been confirmed yet. These classes are designed for the beginner to intermediate level learners and are taught in a very nurturing environment. There is no commitment at this stage – just wanting a possible idea of numbers. Email Whaea Nikki if you have any questions nikki@newstead.school.nz

Dear Parents/Whanau/Caregivers

A common cause of sore throats is a bacteria called group A streptococcus, which should be treated with antibiotics. In New Zealand, a small number of children with this bacteria, if not treated with antibiotics, can go on to develop a serious disease called **Rheumatic Fever**. Māori and Pacific children aged 5-14 years are most at risk from this disease.

What is Rheumatic Fever?

Rheumatic Fever starts with a bacterial streptococcal infection causing a sore throat. The sore throat may disappear, but a few weeks later the following symptoms may develop:

- sore or swollen joints
- jerky movements
- a rash
- fever
- shortness of breath

Rheumatic Fever can cause permanent heart damage, which may mean stays in hospital, surgery, and sometimes a shorter life. Someone with Rheumatic Fever needs ten years of antibiotic injections to protect their heart. Fortunately, if a streptococcal sore throat is treated correctly with antibiotics your child should not get Rheumatic Fever.

What do I need to do if my child has a sore throat?

If a child gets a sore throat, and if they fall into a “high risk” group – Māori or Pacific people aged 4 -19 years of age, they should have a FREE throat swab taken. If they have a streptococcal bacterial infection they will need antibiotics to treat the infection. It is important that all of the ten days of antibiotics are taken exactly as prescribed so the streptococcal bacteria are killed and Rheumatic Fever is prevented.

Even a mild sore throat can cause Rheumatic Fever. Please take all sore throats seriously, so we can help prevent life-long illness and suffering for our children.

FREE sore throat swabbing services

Waikato District Health Board is working with communities to provide free sore throat management services across the Waikato, to prevent rheumatic fever and heart damage. Drop in services are provided by contracted GP practices, pharmacies, pathlabs and secondary school based health clinics for eligible children and young people aged 4 – 19 years.

For more information on who this service is for, and where to find these services, check out our website:
